

# Jaggar Cemetery DMCGS Gravestone Survey

This list is based on the gravestone survey done by the Des Moines Co. Genealogical Society in 1979. That survey was begun in the SW corner and rows were walked S to N and numbered from W to E. The column labeled "DMCGS Location" shows the DMCGS section and row numbering. The last number shows the position in each row where the marker was found. Number 1 would be the stone at the south end of the row, the highest number in the row would be at the north end. This information may be helpful as a number of markers recorded during the 1979 survey are no longer there.

The first three columns (Part, Row, Lot) correspond to Jaggar Cemetery maps. The western part of Jaggar Cemetery is referred to below as the "Old" part, the eastern part as "New". The old part is shown on the first two Jaggar Cemetery maps, the new part on the last three maps. In contrast to the DMCGS row numbering, the Jaggar maps number rows from E to W. Exact lot locations are unknown for many burials in the old section, but simply knowing the correct part of the cemetery and the row number should make it easier to find burials.
