

Jaggar Cemetery Burial Records through 18 March 2013 in lot order

This listing is based on records maintained by the Jaggar Cemetery board. Records for the older parts of the cemetery appear to be based on a gravestone survey done sometime in the 1970's. There are differences between some of the older records in this list and the gravestone survey done by the Des Moines County Genealogical Society so it's best to check both lists. Some grave markers recorded in both lists can no longer be found.

The old section of the cemetery is on the west end. The new section of the cemetery is on the east end. Each section has its own row numbers. In the Mod column an "S" means the burial is in the south end of the row, "N" means north, and "M" means middle.
