

G. Y. Roth, of Sheldon, was a Hull visitor Wednesday. Mr. Roth was formerly a partner of Wm. Boies, of Sheldon in the practice of law. The partnership has been dissolved and Mr. Roth is now endeavoring to force Boies to make restitution of several thousand dollars in fees which he claims Boies collected but had never charged up against himself as having been received. We would not place Boies above a trick of dishonesty. Mr. Roth found one man in Hull who paid Boies \$10 for examining an abstract in 1863 but the famous Sheldon lawyer failed to give the firm the credit for the fee. Another Hull party claims to have paid Boies \$187. Roth says Boies charged himself with having received a fifty dollar fee. After Boies' attempt to mulct the C. L. Davidson estate out of a \$5,000 fee, our opinion of his probity and honesty had evaporated. The depositors of the defunct Sheldon State Bank may well count themselves fortunate if the renowned "Billie Boies" manages the legal part of receivership in such a way as to give them a third of the face value of their holdings. Boies would certainly have made an excellent candidate for the office of district judge. "Nay, Nay, Pauliee."
