

George Regenberg made a living in real estate and insurance. This ad appeared in many editions of the local papers in Illinois.

Social Notes

G W Regenberg, the real estate man, has returned from an extended trip through Missouri, Arkansas, Oklahoma and the Indian Territory. He says that it's a fine country down there and thinks he will return to it soon, probably Friday night, with a party of homeseekers. While down there he saw rye six feet high and timothy four feet high, he also brought home an ear of corn 14 inches in length.
